REPORT

60-30-106 Westridge Combined Area Sewer Separation (2001 Program - Phase III)

Charge: 2001 Annual Capital Budget
Sanitary Sewer Utility \$850,000

Additional Information: Appearing elsewhere on this agenda is an item recommending the award of Contract 2001-16: Westridge Combined Area Sewer Separation (2001 Program - Phase III). This contract is a continuation of the City's overall program to replace existing combined sewers in the Westridge area with separate sanitary and storm sewers. It accords with the GVRD's Liquid Waste Management Plan to eliminate combined sewer overflows that can occur during severe rain storms. Total cost of this phase, including ancillary work by city forces, is estimated at \$850,000. Sufficient General Revenue funds are available and these expenditures are included in the Sanitary Sewer component of the 2001 - 2005 Capital Program.
