

TO: CITY MANAGER **DATE:** 2001 01 10
FROM: DIRECTOR ENGINEERING **FILE:** 10-01-12
SUBJECT: **WORK ORDER #60-30-106**
Combined Area Sewer Separation Program - Engineering Services
PURPOSE: To obtain approval of Work Order #60-30-106

RECOMMENDATION:

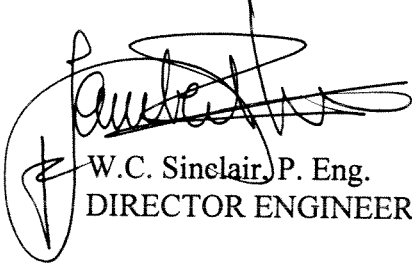

1. **THAT** the above work order, as more specifically referred to in this report, be approved.

R E P O R T

60-30-106 Combined Area Sewer Separation Program - Engineering Services

Charge: 2001 Provisional Capital Budget
Sanitary Extensions \$250,000

Additional Information: Burnaby is required under the GVRD's Liquid Waste Management Plan to undertake a combined sewer separation program aimed at eliminating combined sewer overflows. The Westridge project commenced last year represents the first phase of a comprehensive program to replace existing combined sewers with separate sanitary and storm sewers in that area. The 2001 Provisional Capital Budget includes provision for this continuing program. Consultancy services are required to prepare detailed engineering designs and contract administration for the continuing separation program. Sufficient General Revenue funds are available and these expenditures are included in the Sanitary Sewer component of the 2001 - 2005 Provisional Capital Program.
