REPORT

60-30-108 Sanitary Sewer Rehabilitation - Various Areas

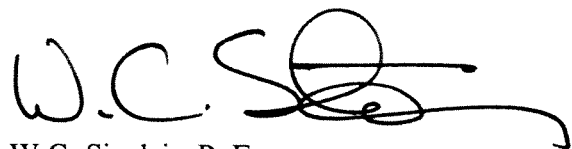

Charge: 2003 Capital Budget
Sanitary Extensions \$200,000

Additional Information: The 2003 Capital Program includes provision for rehabilitation of sanitary sewers at various locations. Total estimated cost of this ongoing program is \$200,000. Work consists essentially of point repairs and relining sewer mains using trenchless technology methods, to repair a variety of defects that affect the structural integrity. Sufficient General Revenue funds are available and these expenditures are included in the Sanitary Sewer component of the 2003 - 2007 Annual Capital Program.

60-30-114 Combined Sewer Separation - Engineering Services (2004 Program)

Charge: 2004 Capital Budget
Sanitary Extensions \$175,000

Additional Information: Burnaby is committed under the GVRD's Liquid Waste Management Plan to undertake a combined sewer separation program aimed at eliminating combined sewer overflows. A comprehensive program to replace existing combined sewers with a separate storm and sanitary sewer commenced several years ago. Consultancy services are required to prepare detailed engineering designs over the fall/winter period in anticipation of tender calls early next year. This is a continuing phase of the Sewer Separation Program funded under the Canada/BC Infrastructure Program. Sufficient General Revenue funds are available and these expenditures are included in the Sanitary Sewer component of the 2003 - 2007 Annual Capital Program.
