R E P O R T

60-30-115 Sewer System Evaluation (2004 -2005 Program)

Charge: 2004 Provisional Capital Budget
Sanitary Extensions \$165,000

Additional Information: The City has an ongoing program to reduce infiltration and inflow in the sanitary sewer system. Reduction of infiltration and inflow lessens the load on sewerage treatment plants and is a critical element in the Regional Liquid Waste Management Plan. The proposed program includes flow monitoring, smoke testing and video camera inspection to identify specific areas of the sewer network requiring rehabilitation. Sufficient General Revenue funds are available and these expenditures are included in the Sanitary Sewer Utility component of the 2003 - 2007 Capital Program.
