**RECOMMENDATION:**

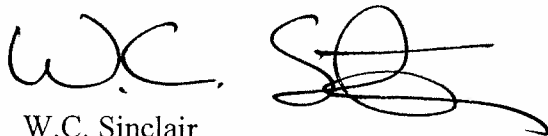

1. The above work orders as more specifically referred to in this report be approved

**REPORT**

**60-30-117** 2006 Sanitary Sewer Rehabilitation Program

**Charge:** 2006 Capital Budget  
Sanitary Sewer Utility \$200,000

**Additional Information:** This work order provides funding for the City's ongoing program to reduce infiltration and inflow (I & I) in the sanitary sewer system. Reduction of I & I lessens the load on sewerage treatment plants and is a critical element in the Regional Liquid Waste Management Plan. Specifically this phase involves the relining of sanitary sewers at various locations. The total project cost is estimated at \$200,000. Sufficient General Revenue funds are available in the Sanitary Sewer Utility, and these expenditures are included in the 2006 Annual Financial Plan.
