REPORT**Bessborough Dr Cul-de-sac Construction**

Charge: 2010 Capital Program
Special Roads \$40,000

Additional Information: A vehicle (hammerhead) turnaround is proposed at the end of the 5500 block Bessborough Dr to address ongoing concerns with vehicles using private driveways to turn around in this dead-end street. The vehicle turnaround will provide an area for vehicles, including garbage trucks, to turn around without impacting private driveways. The work will include some drainage work and a slight extension and widening at the end of the street. Total cost is estimated at \$40,000. Sufficient General Revenue funds are available and these expenditures are included in the Special Roads component of the 2010 Annual Financial Plan.
