The work of this contract involves the performance of pavement rehabilitation work on Marine Way. The work will consist primarily of the supply and installation of approximately 26,200 square metres of asphaltic concrete reclamation, 21,810 square metres of foamed asphalt base stabilization, and the supply and placement of 6,950 tonnes of machine laid asphaltic concrete incorporating 3,555 tonnes of Superpave asphaltic concrete.

The recommended bidder, Columbia Bitulithic, has completed several contracts for the City in the past and all were completed to the satisfaction of the City. Our consultant's review indicates the contractor has the equipment and personnel to successfully complete the work required under this contract. The Director Engineering concurs with this recommendation.
