REPORT

Four tenders for this contract ranging from \$1,450,888.16 to \$2,011,532.47 were received. The work of this contract involves the construction of approximately 900 m of new dyke along the shore of the Fraser River North Arm between Boundary Road and Glenlyon Creek, referred to as 'Reach 9'. The work includes construction of a new dyke with a 4.38 m crest width, with side lopes and/or lock-block retaining walls.

The recommended bidder King Hoe Excavating Ltd. has completed several contracts for the City in the past. Our consultant's review indicates the contractor has the equipment and personnel to successfully complete the work required under this contract. The Acting Director Engineering concurs with this recommendation.
