REPORT

1.0 INTRODUCTION

On 2013 March 26, a subdivision application was received for the closure and consolidation of a 6.1 m by 51.98 m (317.0 m²) lane adjacent 7422 Government Road from Mr. Pablo Su, owner of 7422 Government Road (see *attached* Sketch #1). The lane allowance is unconstructed and is considered to be redundant for City purposes. A 3.0 m wide statutory right-of-way along the western portion of the existing lane allowance is to be granted to the City to provide City access to an existing sewer right-of-way located to the south. The subject closure of an area of 317.0 m² will contribute 86.3 m² of additional permitted gross floor area potential and additional garden area for single family development of 7422 Government Road. The Legal and Lands Department has determined a market value of \$94,000.00 for the 317.0 m² closure area. The applicant has agreed to purchase the proposed road closure area at the established market value. The Planning and Building Department has provided a letter to the applicant stating that the sale of the lane closure area would be contingent upon Council approval and completion of the required conditions of the related subdivision and road closure applications.

The Planning Department has received the written concurrence to the conditions of the subdivision, lane closure and land sale from the applicant.

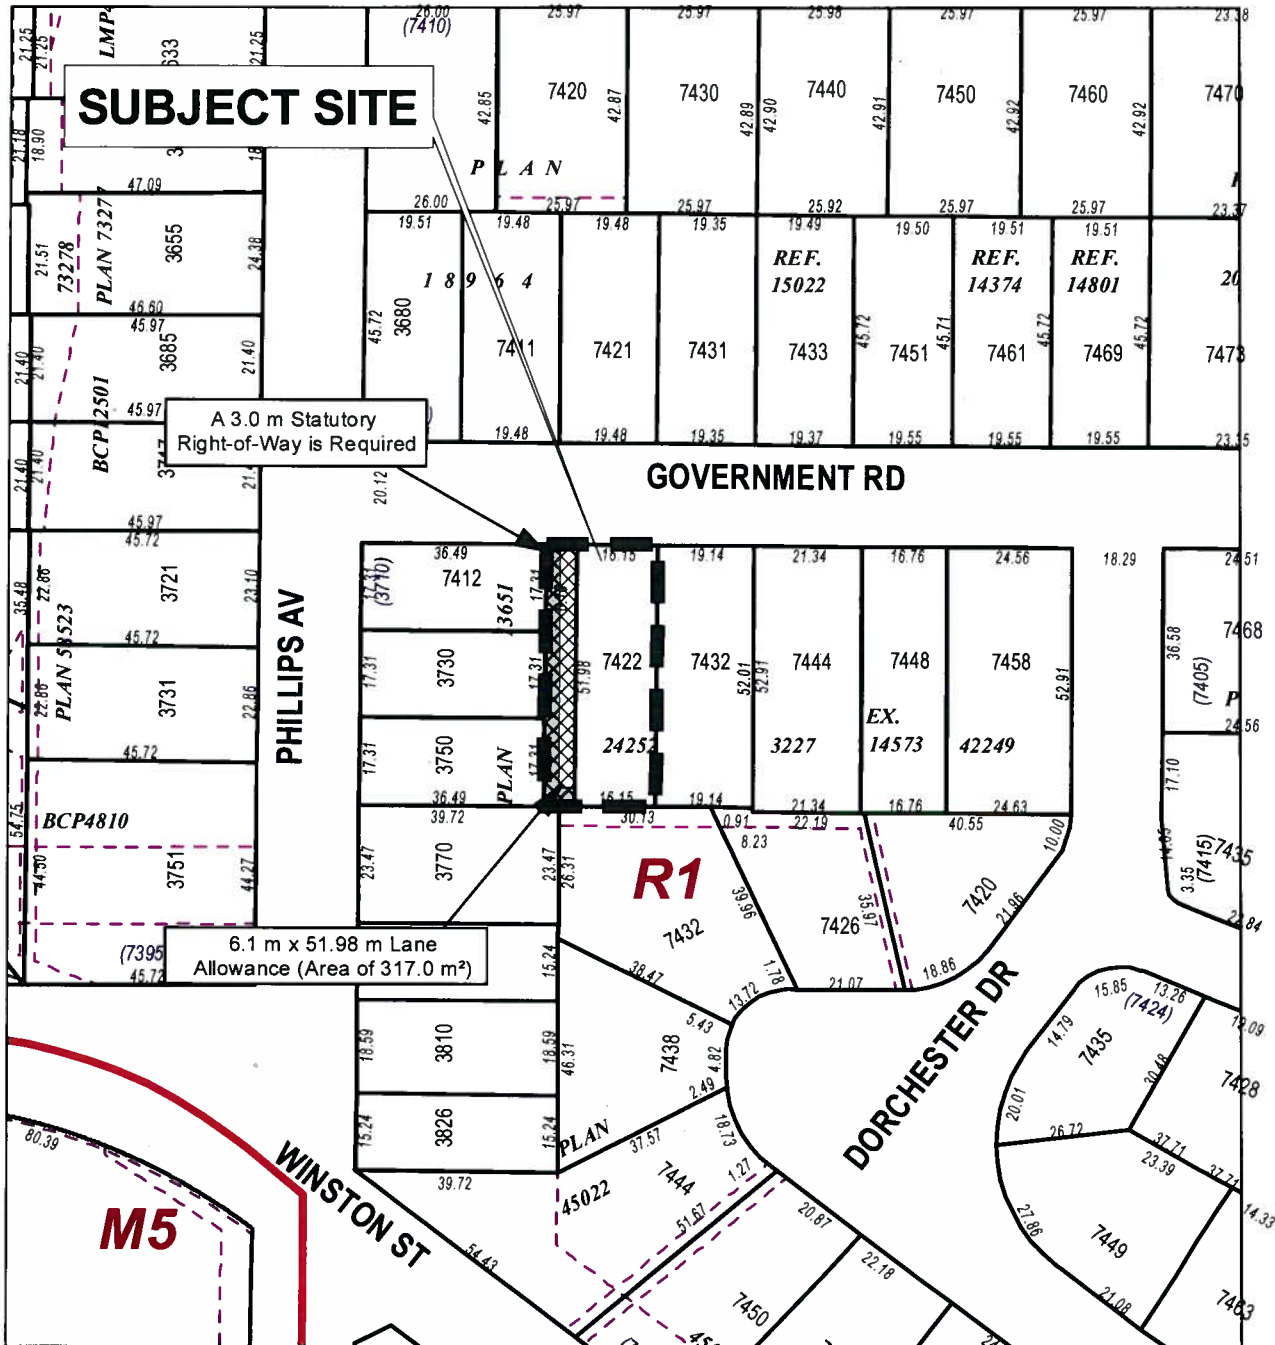

It is recommended that Council authorize the introduction of a Burnaby Highway Closure Bylaw to provide for the closure and consolidation of the subject redundant lane, as indicated on Sketch #1. Council authorization for the sale of the closure area, as indicated in this report, is also sought. With subsequent Council adoption of the bylaw, the subject lane area would be closed, sold and consolidated with the subject property as part of the completion of the applicable subdivision and road closure applications.
