SUBJECT: 2014 FEES FOR BUILDING PERMITS AND OTHER PLANNING APPLICATIONS AND SERVICES

PURPOSE: To provide Council with recommendations for the Planning and Building Department's 2014 fee schedule for various applications for the purpose of cost recovery.

RECOMMENDATIONS:

1. **THAT** Council approve the proposed fee adjustments and text changes, as outlined in this report.
2. **THAT** Council give the bylaw amending the rezoning application fees in the Burnaby Zoning Bylaw, as outlined in Section 3.2 of Schedule A, First Reading on 2013 November 04 and that the bylaw be advanced to a Public Hearing on 2013 November 26 at 7:00 pm.
3. **THAT** Council authorize the preparation of the necessary bylaw amendments to effect the remaining fee adjustments and text changes, as outlined in Section 3.2 and Section 4.0 of Schedule A of this report.

REPORT

The Local Government Act provides for the imposition of fees and charges for applications and various types of permits and services under Part 26 (Planning and Land Use Management) and Division 9 (Permits and Fees) for the purpose of recovering the costs of administration, inspection, advertising and processing. Over the years, fees and charges have been established for a number of processes, works and services: permits for building construction, including electrical, plumbing and gas inspections; fees for rezoning, strata titling and subdivision of land; and a variety of other services. To help ensure that fees recover the basic costs of City processes, works and services, staff conduct an annual review of the fee schedule.

Staff have completed the annual review of fees for 2014. The *attached* Schedule A outlines the recommended adjustments. Generally, the Planning and Building Department's fees are proposed to increase by 2.5% to ensure cost recovery and a median fee position relative to other

municipalities in the region with similar processes, services, and development conditions. In some cases, proposed fees have been adjusted further, or maintained at current rates, to more accurately reflect processing costs.

It is recommended that a bylaw amending the rezoning application fees listed in the Burnaby Zoning Bylaw, which appears elsewhere on the 2013 November 04 agenda, be given First Reading on 2013 November 04 and forwarded to the Public Hearing of 2013 November 26. Fees not listed in the Burnaby Zoning Bylaw do not require presentation to a Public Hearing. Upon Council approval of the recommendations of this report, staff will arrange for the introduction of the remaining bylaw amendments to effect the proposed fee adjustments. The new fees would come into effect following Council adoption of the necessary bylaw amendments.

Schedule A

Review of Fees for 2014 for Building Permits and Other Planning Applications and Services

1.0 GENERAL

It is intended that the structure and schedules for Planning and Building Department fees account for the full range of costs (administration, processing, record keeping, responding to enquiries, inspections, etc.) that are accrued for each type of application, permit, service, or work. This approach recognizes that these costs are commonly incurred, to varying degrees, by a variety of different departments. For example, while the bulk of the administrative costs for processing a rezoning application may be incurred in the Current Planning Division, considerable staff effort is often expended in the Clerk's Office, Legal and Lands Department, Engineering Department, Fire Prevention Office, and Building Division, as well as, to some extent, by the RCMP, the Parks, Recreation and Cultural Services Department, the Licence and Property Management Office, and the Tax Office. The degree to which other departments may be involved varies considerably with the type of application and from case to case. The overriding consideration in the Local Government Act, which governs fees imposed for planning-type services, is that the fee must not exceed the estimated average costs of processing, inspection, advertising and administration that are usually related to the type of application or other matter for which the fee is collected. The approach taken by the City is to recover the estimated average cost of processing across a wide range of application, permit, service and work types.

Metro Vancouver municipalities with similar processes and services were surveyed to determine the average fee charged for such processes and services in the region. In general, Burnaby's Planning and Building fees continue to maintain a median fee position, with some variation by fee types, relative to other Metro Vancouver municipalities with similar development conditions.

2.0 COST OF SERVICE ADJUSTMENT

2.1 General 2.5% Increase

In May 1997, Council completed a comprehensive review of fees and directed staff to prepare an annual fee report for each subsequent year. The intent of the annual fee review is to establish a more systematic fee increase process and to avoid substantial increases at any one point in time. Under this system, fees are adjusted each year to ensure that the costs entailed in each type of application, permit, service, or work is recovered. Using the established fees as a benchmark, it is proposed that an average fee increase of 2.5% be applied to recover costs for the various permits and other services offered by the Planning and Building Department in 2014.

3.0 PLANNING DIVISION

3.1 General 2.5% increase

Staff have reviewed the existing cost recovery structure of the present fee schedule for rezoning, subdivision, development approvals (PPA), strata titling and various other planning approval services provided by the Planning Department. As required by the Local Government Act, and based on the review undertaken in 1997, and adjustments that have been made each year since, care has been taken to ensure that the proposed fees recover the estimated average cost of processing, inspection, advertising and administration. An increase of 2.5% is generally proposed for Planning Division fees, as listed below. All Planning Division fees have been rounded to the nearest dollar, with the exception of the Preliminary Plan Approval “on construction value” fee (Item 18), which has been rounded to the nearest \$0.05.

3.2 Proposed 2014 Planning Fees

SCHEDULE OF PLANNING FEES:	CURRENT	PROPOSED

18. On construction value (per \$1,000)	\$2.30	\$2.35
19. Extensions	\$141.00	\$145.00

Rezoning fees (Items 1, 2, and 3) are set out in the Zoning Bylaw and, therefore any change to them must be presented at a Public Hearing. The other proposed changes to the Planning Division fees may be adopted without a Public Hearing, along with the proposed changes to the Building Division fees detailed in Section 4.0 below.

4.0 BUILDING DIVISION

4.1 General 2.5% increase

A fee increase of 2.5% is proposed for Building Division fees with the exception of the following:

- **Plumbing Permit Fees – Permit Refunds:** Due to the adjustment made in 2013, which increased the minimum non-refundable amount from \$100 to \$150, no change is proposed for 2014 (Item 13 on Page 7 of this Schedule A).
- **Gas Permit Fees – Permit Refunds:** Due to the adjustment made in 2013, which increased the minimum non-refundable amount from \$100 to \$150, no change is proposed for 2014 (Item 8 on Page 9 of this Schedule A).
- **Building Permit Fees – Permit Extensions:** Due to the adjustment made in 2013, which increased this fee from \$102.60 to a three-tiered system with fees ranging from \$200 to \$400, no change is proposed for 2014 (Item 3 on Page 11 of this Schedule A).
- **Building Permit Fees – Special Inspections:** Due to the adjustment made in 2013, which increased the base fee from \$82.10 to \$250, no change to the base fee is proposed for 2014. The general 2.5% increase is proposed for the supplemental hourly fee (Item 8(a) on Page 12 of this Schedule A).
- **Damage Deposit and Inspection Fees:** Damage deposit and inspection fees are collected by the City’s Engineering Department and the pre- and post-construction inspections of adjacent City property are carried out by Engineering Inspectors. The damage deposit amounts and the related inspection fees are listed under Schedule D of the Building

¹ Fees for PPAs fall under the Building Bylaw and are included in the Building Permit Fee Schedule. They are listed in the schedule of Planning Fees for convenience.

Bylaw. The Engineering Department proposes a general 6% increase to recover the inspection costs for Engineering Department services, while the damage deposit fees remain unchanged. This percentage is based on cost of living increases since the last fee adjustment in 2011. (Pages 14-15 of this Schedule A).

- **Electrical Permit Fees – Permit Refunds:** Due to the adjustment made in 2013, which increased the minimum non-refundable amount from \$100 to \$150, no change is proposed for 2014 (Item 8 on Page 17 of this Schedule A).
- **Sewer Connection Permit Fees:** The Engineering Department proposes a general 6% increase to recover costs for Engineering Department services. This percentage is also based on cost of living increases since the last fee adjustment in 2011. (Page 20 of this Schedule A).

The remaining fee increases for the Building Division have been rounded to the nearest \$0.05, with the exception of the per kVA fees for electrical permits, which have not been rounded, and the following fees which have been rounded to the nearest \$1.00: re-inspection fees, Preliminary Plan Approval (PPA) base fees and sign fees, damage deposit related inspection fees, Tree Permit fees, and Sewer Connection Permit fees.

Lastly, the following minor text change to the fee schedule is proposed:

- **Building Permit Fees – Building Permit for Demolition:** In order to clearly define the fee categories for demolition permits, the addition of explanatory notes for each fee category is proposed. (Item 5 on Pages 11 of this Schedule A).

From an administrative standpoint, it is noted that changes to the Building Division fee schedule do not require a presentation at Public Hearing, but rather the adoption of the relevant bylaw amendments by Council in the usual manner.
