SUBJECT: GAGLARDI WAY R19 BRIDGE STRUCTURAL REHABILITATION AND SEISMIC RETROFIT PROJECT – ENGINEERING AND CONSTRUCTION SERVICES

PURPOSE: To seek approval of the revised expenditure for engineering services related to the Gaglardi Way R19 Bridge Structural Rehabilitation and Seismic Retrofit Project

RECOMMENDATION:

1. **THAT** Council approve the revised amount of \$305,398.44 (inclusive of GST) under the existing Engineering Agreement E1/2013 with Associated Engineering (BC) Ltd. as described in this report.

REPORT

In 2012 December, Engineering Agreement E1/2013 was awarded to Associated Engineering (BC) Ltd. in the amount of \$105,613.76 (including 12 % HST). The scope of the project includes engineering design services and construction supervision related to the Gaglardi Way R19 Bridge Structural Rehabilitation and Seismic Retrofit Project. The initial award amount addressed the predesign engineering services only. Subsequently, the agreement was extended to include the detailed design and tendering services increasing the fee total to \$146,757 plus taxes.

During the design phase, the scope of work for the project was finalized and the engineering construction and administration services have been determined to complete this work, requiring an increase of \$149,654.40 (including GST) to the Engineering Agreement. Staff have reviewed the proposed fees for construction administration and believe it fairly represents the effort involved.

It is recommended that the existing engineering agreement E1/2013 be revised to the total amount of \$305,398.44 (inclusive of taxes), as outlined in this report. The Purchasing Manager concurs with this recommendation. Appearing elsewhere in the agenda is a funding report for this project
