REPORT**1.0 BACKGROUND**

A request to ride through Burnaby for the 38th Annual Christmas Toy Run has been received from Chris Bayliss, Executive Director of the Lower Mainland Christmas Bureau. The Christmas Toy Run is an annual event that provides a large quantity of toys for families throughout the Lower Mainland. This year's event has been scheduled for Sunday, 2016 October 02.

2.0 PROPOSED ROUTING AND TRAFFIC CONTROL

As in previous years, the Toy Run will commence at Coquitlam Centre, travel west through Port Moody on St. Johns St, west through Burnaby via Barnet Rd and Hastings St, and into Vancouver to the Pacific Coliseum. The majority of the route passes through the City of Burnaby.

To safely accommodate the needs of residents and participants, an active role for City staff and the RCMP is required. The proposed traffic control plan for the day of the event is summarized as follows:

Parking will be removed from the north side of Hastings St between Inlet Dr and Boundary Rd from 8:30am to 11am. City Bylaw Officers will arrange for the removal of any vehicles left on the street during this restriction.

All intersecting streets on the north side of Hastings St between Inlet Dr and Boundary Rd will be closed from 10:00am to the end of the parade at approximately 12:00pm except for three control points at Willingdon Ave, Holdom Ave and Cliff Ave where traffic will be queued and allowed to cross at the traffic signals at the RCMP's discretion.

Eastbound traffic will not be permitted to turn left across the parade traffic. Northbound traffic will be restricted to right turns only at all intersections except at the three control points mentioned above. Westbound Burnaby Mountain Pkwy traffic will be intercepted at Duthie Ave and routed southbound to Curtis St or Broadway for the duration of the parade. Barricades will be provided by City staff.

All traffic signals will be held in amber or red flash operation during the parade. Regular RCMP officers or RCMP auxiliary members will be posted to all signals to monitor and control traffic operations as required during the parade.
