ZONING BYLAW AMENDMENTS

- 1) BURNABY ZONING BYLAW 1965,
AMENDMENT BYLAW NO. 29, 2016 – BYLAW NO. 13630

Rez. #16-03

1431 Sperling Avenue

From: CD Comprehensive Development District (based on C1 Neighbourhood Commercial District and P1 Neighbourhood Institutional District)

To: R4 Residential District

The purpose of the proposed zoning bylaw amendment is to permit development under the R4 Residential District.

The Advisory Planning Commission advised it supports the rezoning application.

No letters were received in response to the proposed rezoning application.

The following speakers appeared before Council and spoke in opposition to the proposed rezoning application:

Olga Maltseva, 6783 Napier Street, Burnaby, appeared before Council and spoke in opposition to the proposed bylaw amendment. The speaker advised her son attends the Montessori daycare currently located in the existing building, and is concerned about securing daycare for her child. Mr. Maltseva believes that the loss of the building will result in a decrease in quality of life for surrounding community members as the businesses contained in the building will be lost.

Ron Basaera, 4806 Main Street, Vancouver, appeared before Council representing the applicant. Mr. Basaera stated that the building is old and the existing daycare does not have the funds necessary to address building deficiencies required to continue daycare operations. The applicant is willing to extend the vacancy notice period for the daycare to allow them additional time to secure a new location. Mr. Basaera spoke to the financial viability of the existing retail spaces and stated that competition from nearby shopping centres has resulted in decreased demand for retail space in the building, leading to high vacancy rates.

Joel Whittemore, 6778 Grant Place, Burnaby, appeared before Council and requested clarification as to how the City determined that the proposed zoning was appropriate for the neighbourhood.

The Director Planning and Building advised the speaker of the OCP public consultation and planning processes, and confirmed that the proposed rezoning is consistent with zoning practices in the surrounding community.

Olga Maltseva, 6783 Napier Street, Burnaby, spoke for a second time, and posed questions to the developer regarding the required building upgrades/maintenance and the viability of the remaining business spaces.

Teresa Louie, 7328 Arcola Street, Burnaby.

The following speaker appeared before Council seeking clarification on the proposed rezoning application:

Paul Bailey, 1803-7328 Arcola Street, Burnaby, requested clarification as to why the P6 District was not included in the original rezoning application.

The Director Planning and Building responded that there was no indication at the time when the original rezoning was considered that there was now interest in institutional use for the property.

Mr. Bailey asked if it was possible to restrict the type of business that could lease or purchase the space. The Director Planning and Building informed the speaker that any uses outlined in the P6 District would only be restricted if there were building code issues that could not be addressed.

Hajera Baqi, Shoppers Drug Mart, 104-3433 North Road, Burnaby, appeared before Council and shared concerns regarding the proposed rezoning application. Ms. Baqi posed questions about the ventilation of the space and a potential loss of parking from construction activities.

Peter Hirny, 590 Whiting Way, Coquitlam, appeared before Council and stated that the on-site rezoning signage was not appropriately located on the subject property. Mr. Hirny showed Council a photo on his camera of the onsite signage attached to a street light standard facing the road. The location of the sign made access to the information contained therein difficult as the light standard directly abutted the roadway.

Christa Wilcock, 1600-650 West Georgia Street, Vancouver, appeared before Council representing the property owners. Ms. Wilcock stated that construction would be after December 2016, that parking will be maintained for customers and that the ventilation of the enclosure would be provided by exhaust fans and open air circulation.
